JOSIAH TURNER, Jr., EDITOR.

OBSEQUIES OF JOHN BELL—THE LAST HONORS TO THE DECEASED.

From the Nashville *Press and Times*, of Monday, we extract the following account of the last honors paid to the remains of Tennessee's loved son, John Bell.

LYING IN STATE.

During Sunday thousands visited the Capitol to take a last look at the statesman and patriot, whose life had been devoted to his countrymen. Many brought flowers and wreathes, which were placed upon the casket as offerings to one whose fame will live while America has a history. Though the crowd was large, and all were anxious to look upon the face of the dead, yet it was orderly, and nothing occurred to mar the solemnity of the occasion.

As the time approached for commencing the services, the spacious galleries began to fill, and when the clock struck three both galleries were densely packed, and the floor of the house was also filled. Not one fourth of the people who visited the Capitol were able to get into the hall. The passages, the lower hall, south steps and grounds, were thickly filled with ladies, gentlemen and children. It appeared as if the entire population of the city were in and about the Capitol.

In response to the invitation of the Committee of Arrangements, the population of the city repaired to the Capitol yesterday afternoon, at 3 o'clock, to participate in the last honors to the remains of Hon. John Bell, Tennessee's gifted son. When we arrived at the Capitol we found all the approaches crowded, and the entire building crowded with a vast concourse gathered to pay respect to the illustrious dead. The body had been lying in state during the day in the Representatives Chamber, guarded by a detachment of the 45th Infantry; the elegant casket was covered with wreaths; crowds were continually passing, looking for the last time upon the face of the dead. After some time spent in permitting the vast crowd to look upon the remains, the audience became seated. The speaker's stand was occupied by Bishop Quintard, Reverends Rice, Sawrie, Young, Wright, Skinner, Campbell and P. S. Fall; also ex President Johnson, Governor Senter, and many other prominent and distinguished divines and citizens.

After the arrival of the family and mourners, the services were commenced by the reading of selections from the psalms, in impressive tones, by the Rev. W. D. Sawrie.

After the reading of the psalm, Rev. Dr. Young offered a fervent and eloquent prayer to the Throne of Grace; when the Rev. P. S. Fall made a few remarks:

At the conclusion of the address, Rev. Dr. Wright offered a solemn prayer, and the benediction, by Rev. P. S. Fall, completed the exercises at the Capitol.

The body was then taken in charge by the pall bearers and moved to the Cedar street front of the Capitol, where the hearse was waiting, with a large number of carriages; also two companies of the 45th Infantry, and a mounted detachment of the same regiment of United States regular troops, with officers, and the Odd Fellows' Band.

THE PROCESSION

was formed by Maj. Gen. B. F. Cheatham, assisted by Gens. Dawson, Smiley and others, when it moved down Cedar to High, to Church, to Summer, to Broad, to Market, to Lebanon Pike, and to the Mt. Olivet Cemetery. First came carriages, containing Bishop Quintard and other clergymen, then the military escort of two companies of the 45th United States Infantry; then the hearse drawn by six white horses, led by grooms, and guarded by the mounted detachment of the 45th United States Infantry; carriages containing the family as mourners; next carriages with pall bearers, Govs. Brown and Foote, Judges East, Baxter, Cary, Harrison, Gaut, Shackelford and Smith, Francis B. Fogg, Col. John C. Burch, John Marshall, Terry H. Cahill, John M. Bass, Jr., R. L. Caruthers, Jr., John Bell Brownlow, Player, Martin, John Brown and Col. John Williams.

Carriages with immediate relatives. Ministers of the Gospel.

Ex President Andrew Johnson, in a carriage.

Carriage with Col. S. D. Morgan and Col. Jno. M. Bass.

Carriage with Executive Committee.

Gov. Senter and State officers.

Ex Governors, United States Senators, and members of Congress.

Judges of the Supreme Court.

Gen. Lovell and staff.

Committees of escort and arrangements.

Members elect of the State Legislature.

Members and officers of the municipal government.

Masons, Odd Fellows and other organized benevolent societies.

Citizens in carriages.

Citizens on foot.

In this order the procession moved slowly through the city to the strains of Beethoven's Funeral March, played by the band.—The streets, windows and doorways were filled with the population of the city, looking upon the cortege as it moved slowly and solemnly with the illustrious dead. We do not recollect when we have seen such a general outpouring of the people of Nashville. It was apparent to any observer that a great man had passed away, and the entire population of all classes had come to pay the last honors to Tennessee's noble and gifted son. All were interested in expressing their regard and respect for the dead.

AT THE CEMETERY.

On arriving at the gate of the cemetery, the band played a solemn dirge; the escort formed on one side of the walk, and as the pall bearers passed with the casket, the escort presented arms. Every head was uncovered when the deep, impressive tones of Bishop Quintard were heard in the funeral service of the M. E. Church.

The scene during the services was beautiful and impressive in the extreme.—Around the coffin was assembled a small group with bowed and uncovered heads, in which the glittering uniforms of the army contrasted with the sombre black of the mourners—a shade of the pomp and glory of grim-visaged war in a picture of grief, for the death of one whose memory was then revered, not so much for his labors in the councils of the nation, as for his qualities as a man, his warm affections, and all those traits of character which endear one to his fellow-men. Overhead the azure sky was visible over and anon between the branches of the trees, stirred by the mild autumn breeze, while around on every side gleamed the tombstones, brought out in bright relief against their back ground of green foliage. All was silent in the group at the tomb, and in the assemblage congregated in the vicinity, unbroken except by the low, solemn tones of the officiating clergyman conducting the burial services.

With the close of the impressive service, the vast concourse slowly began to separate, and ere many minutes had elapsed, no one was to be seen about the tomb but the few persons who had duties that kept them.

In conclusion we will remark that we have never seen in Nashville such a manifestation by the citizens. It showed that every one wished to show their respect for the man, and admiration for his public life.

DOTY'S WASHING MACHINE,

LATELY MUCH IMPROVED,

AND THE NEW

UNIVERSAL CLOTHES WRINGER.

Improved with ROWELL'S PATENT DOUBLE COGWHEELS, and the PATENT STOP, are now unquestionably far superior to any apparatus for washing clothes ever invented, and will save their cost twice a year, by saving labor and clothes.

Those who have used them give testimony as follows:

"We like our machine much; could not be persuaded to do without it, and with the aid of Doty, we feel that we are masters of the position."—*Rev. L. Scott, Bishop M. E. Church.*

"It is worth one dollar a week in any family."—*N. Y. Tribune.*

"In the laundry of my house there is a perpetual thanksgiving on Mondays for the invention."—*Rev. Theodore L. Cuyler.*

"I heartily commend it to economists of time, money, and contentment."—*Rev. Dr. Bellows.*

"Every week has given it a stronger hold upon the affections of the inmates of the laundry."—*N. Y. Observer.*

"Friend Doty—Your last improvement of your Washing Machine is a complete success. I assure you 'our machine,' after a year's use, is thought more of to-day than ever, and would not be parted with under any circumstances."—*Solon Robinson.*

"Your Washing Machine has been in daily use in our laundry and the housekeeper expresses herself as highly pleased with it. It certainly accomplishes a greater amount of work, with less labor, and does not wear the clothes near so much as the old fashioned wash-board. By using it one laundress is dispensed with."—*Wm. M. F. Round, Superintendent of Infant Department of St. Catherine's Nursery, N. Y. City.*

PRICES.—A Fair Offer.

Send the retail price Washer $14, Extra Wringer $9 and we will forward either or both machines, free of freight, to places where no one is selling; and so sure are we they will be liked, that we agree to refund the money if any one wishes to return the machines, free of freight, after a month's trial, according to directions.

No husband, father or brother should permit the drudgery of washing with the hands, fifty-two days in the year, when it can be done better, more expeditiously, with less labor, and no injury to the garments, by a Doty Clothes Washer, and a Universal Wringer.

Canvassers with exclusive right of sale make money fast selling them.

Sold by dealers generally, to whom liberal discounts are made.

THE SENTINEL.

JOSIAH TURNER, Jr., EDITOR.

MONDAY, SEPTEMBER 20, 1869

TREASURER JENKINS' SECOND LETTER.

We have no disposition to do any one injustice, and we are willing that even our bitterest and most implacable enemies shall be heard through our columns in any respectful explanation, or attempted explanation, of charges we may deem it just and proper to prefer against them. Hence we cheerfully publish, in another column, the second explanatory letter of Mr. Treasurer Jenkins, in reference to the Chatham Railroad bonds, and call attention to it. But we will not forbear to make such comments upon it as justice and truth demand.

It is manifest to any disinterested reader that this letter is a labored effort to get rid of an ugly charge by a sort of *special pleading* and specious statement of facts. Indeed, the facts set forth in the letter establish the truth of the principal charges we made, and the only evidence offered to refute the charges we have established to the satisfaction of disinterested people, is the simple, naked denial of the charges by the party charged, the Treasurer, without facts to sustain his denial. He admits that Of $2,000,000 bonds were issued; he says they were issued at the end of sixty-five days from the passage of the Act of Assembly under which they were issued, and, therefore, there was no *indecent haste* about the matter; there was no collusion, and that all done about the bonds was done in the ordinary course of business. This is substantially the Treasurer's defense and explanation.

Now, we insist that the facts taken as stated, show indecent haste, and that the bonds were issued in *a hurry*, and under such circumstances as to exhibit a purpose to be in a hurry. It has been the custom at all times, in this State, to give notice of all important events and transactions, especially notice of the issue of bonds of the State for large amounts and for particular purposes. This was so before the war, during the war and since the war, up to the time of the present State administration. The SENTINEL, *Standard* and other papers that have been published in this City, prove this statement to be true; and in many instances the *Standard* has given such notice; and the *Standard* which claimed itself upon being the "official organ" of the present State government, is *prolific* of notices of official actions of the Treasury Department of the State, and important actions about things about to transpire and things to be done. Yet, in regard to the case in hand, the *Standard*, the *official organ*, always ready to give notice, says not a word about the grave matter of issuing $2,000,000 bonds to the Chatham Railroad Company. Why such silence in a matter so important? Had the public no interest in this matter? We repeat, why did the official organ give no such notice? Was the fact of the issuing of those bonds withheld from the *Standard*? If so, for what? Certainly for some purpose? Did the *Standard* learn the fact and fail to notice it? If so, why? It always gives notice of such matters, unless there be a reason why it should not.

Why did not the Treasurer give notice of the issue of these bonds? He knew, as he now admits, (he did not do so at first,) that the right to issue them was questioned and seriously questioned, in the Legislature and out of it. Does it not look very much like he was afraid to tell the people of the issue, for fear some one might interfere to prevent it? He failed to give the ordinary and customary notice of such important events, and there was a cause for it.

We say further, that under the circumstances of this case, and outside of facts tending to show collusion and bad faith, the time of sixty-five days was an exceedingly short time in which to execute such a duty, and that there was indecent haste! When, before the present State government, were $2,000,000 bonds of the State issued within sixty-five days of the passage of the act authorizing them, in ordinary times.—Never. Such a thing was unheard of. In the case in hand, the right to issue the bonds was seriously questioned in the Legislature and out of it, as we have before observed; the Railroad Company could not properly and legitimately use all the bonds at once; it was certainly wrong and impolitic to throw them all in the market at once, yet in the face of all this, the Treasurer says *the whole* of the bonds, proposed to be authorized, within *sixty-five days* of the passage of the act! Yes, and then has the effrontery to say, such *haste* was not in a *hurry*! We think differently, and we believe the public will think differently, and we believe every impartial man will think differently.

The Treasurer, in his special pleading, says, it took but a little while to alter the *plates* for the bonds, to correspond to the bonds. Now, we happen to know it is not so small a job to alter the plates, and that, to write to New York on the 3rd of September and then have the work done and the bonds issued by the 19th, day of October would require the greatest activity; much greater activity than would have been exercised by a public official, more anxious about the interest of the State, *whose agent he is*, than a Railroad Company, whose agent in this case he had no right to be? Can the Treasurer not perceive that we and the people see, through this, notwithstanding his special pleading:

We don't doubt that the Treasurer called for a Legislative Committee; this is the very thing a guilty man would do; he needs just such "white washing" as such an instrumentality could give. How easy for him to make a fair statement and get a fair "white washing report"! But, unfortunately for the Treasurer, the report made by this Committee shows in its face that it is also self-condemnatory. It says he had acted according to law, when in fact and in truth, he had not. The mortgage which the law required him to take before issuing the bonds had not been stamped according to law, nor had the deed been registered as required by law before the bonds were issued. What is such a report worth, and what credit will the public, or ought anybody, to give it? Don't it look like the Treasurer was in *a hurry*, when he could not wait till the mortgage deed was stamped and registered before he issued the bonds? It looks so to any one who stands in a great place to see.

The Treasurer says that he has simply to say, that *he denies* that the bonds were issued in indecent haste. Well, we and everybody expected him to do so. He says no transaction was ever more *deliberate* and *public*, than the issue of the bonds. We have no doubt they were *deliberately* issued, nor has the public any doubt on the subject; but that they were *publicly* issued is not so, as we have shown.

He talks about his duty not to nullify the law, &c. Nobody asks him to do so, but he need not be *in such a hurry* to execute a law, and that without notice, that was so questioned, and which was after ward held by the Courts to be unconstitutional. And, besides Treasurer, (you know) a faithful public agent is never *in a hurry* to execute an act that is *seriously questioned* in and out of the Legislature, especially where great public interests are concerned. He will, in such a case, proceed *cautiously* and call in all the aids and lights he can, for the safety of the State and people whose servant and agent he is. Do you see the point? The people do.

The Treasurer boasts that the bonds were *handed over the counter, regularly by his Chief Clerk*. We don't doubt this; it took but a moment to do it—that was the *way* to do it. *How many people* saw the Chief Clerk do this great job? *How many of the people* had an inkling that you were going to do this little job in *such a hurry*?

We repeat our question, Mr. Treasurer. Did not the Chatham Railroad Company make it worth your while to issue the bonds *in such a hurry*? And have not other Railroad Presidents made it worth your while to issue bonds in *a hurry*, and without any notice through the "official organ," or any other notice of such issue? Will you tell the people on your soul and before Heaven!

A correspondent of the Tabor' *Southerner* thus alludes to the present authorities of the so called University at Chapel Hill:

"The people of North Carolina may be ignorant and as coarse as Superintendent Ashley represented them, in his speech at the late Educational Convention in Trenton, N. J. But they have got more sense than to think that a worsted Tutor of Mathematics is fit to be President of the great University of North Carolina—that young men ought to go past Prof. Fetter to learn Greek from a Yankee School Teacher of negro children—that a man, who, after a dozen years of teaching has in his library barely a dozen decent authorities in Mathematics, is fit to succeed Dr. Phillips—that a coon hunter and banjo picker is fit to succeed such an elegant scholar as is Dr. Hubbard, or that a bare foot friar in his shirt tail can teach Metaphysics as Hepburn taught it."

THE AVONDALE MINING DISASTER—CONCLUSION OF THE INQUEST—VERDICT OF THE JURY.—The coroner's inquest at Plymouth, Penn., upon the victims of the Avondale mining calamity was concluded on Tuesday night in a verdict of censure against the company and the means of ventilation employed. The inquest was resumed before Coroner Wadhams on Tuesday morning at 9 o'clock. The evidence taken was mostly from practical miners and civil engineers, who are intimate with the working and ventilation of mines, and whose testimony effectually refutes the theory that the fire could not have caught from the furnace. That it did catch from the furnace is most certain, and no person who is at all acquainted with the facts in relation to the catastrophe, or of the situation of the tunnel which has formed the basis of the incendiary theories, now believes that it was the work of an incendiary, but rather that this theory is the work of certain persons to whose obvious interest it is to suppress the truth. The evidence was submitted to the jury about five o'clock, and they did not agree upon a verdict until nearly midnight, when they returned the following:

"That the said Palmer Steele and others came to their deaths in the Avondale mines; that the cause of their death was the exhaustion of atmospheric air or a prevalence of sulphuric and carbonic acid gases in the said Avondale mines, caused by the burning of the head house and breaker at said mine on the 6th of September, thereby destroying the air courses leading from the mine through the shaft; that the fire originated from the furnace in the mines taking effect on the wooden location in the up-cast air course leading from the bottom of the shaft to the head house. The jury regard the present system of mining in a large number of mines now working by shafts as insecure and unsafe to the miners, and would strongly recommend, in all cases where practicable, two places for ingress and egress, and a more perfect ventilation, thereby rendering great security to the lives of the miners under any similar accident."

CAUSES OF INTEMPERANCE.—The *Pride*, a newspaper published at the Sanitarium, near Media Pennsylvania states that one-third of the whole number of patients in the institution acquired a taste for strong drink in attending parties and other social gatherings; that the other two-thirds became drunkards from constitutional tendencies, inducing insanity in some and reckless disregard of moral obligations in others. Of the first class, twenty two were cured; of the second, only eight. Two-thirds of the whole had the benefit of Christian and temperance training, while only twenty-three had been neglected.

For the Sentinel.

Editor of the Sentinel:

SIR:—The questions asked in your paper of the 15th are easily answered.

1st. As to the charge that the Chatham Railroad bonds were issued with *indecent haste*. The facts are as follows: The Act authorizing the issue was ratified on the 15th of August. On the 3rd of September, *eighteen days thereafter*, the order was given to the American Bank Note Company to have the bonds printed. The order was written by my Chief Clerk, Mr. Bain, in my name. I enclose you a copy of it that you may see that the Bank Note Company was not urged to hasten the bonds at all.

As I said in my former letter, $1,200,000 bonds had already been issued to the Chatham Railroad Company, under an ordinance of the Convention.

The plate prepared for this issue could be altered with little expense and delay for the $2,000,000 note. Accordingly I ordered the Company to make the necessary alterations in the old plate. On September 23th, twenty five days afterward, a proof copy was received, approved, and the bonds ordered to be printed in accordance therewith.

To print 2,000 impressions from the plate thus approved, and transmit them to Raleigh, occupied but a short time. Certainly *three* weeks time was amply sufficient without, in the slightest degree, "hurrying" to have them ready for delivery.

In this narrative you see the marks of "indecent haste." In truth, however, never was a transaction *more deliberate or more public*.

You seem ignorant of the fact, yet it is true, that the Treasurer is not bound to sign the coupons of bonds. His signature is engraved on them. This has been the case since the close of the war. During the war numbers of Clerks were employed to sign coupons, issued by Gov. Worth and Gov. Vance. The General Assembly of 1865'6, thinking it a better plan, authorized the Treasurers to have their signatures *engraved* on the coupons. This is the common practice with the coupon bonds of the United States, and of all the States. The old practice of Treasurers actually signing coupons has long since become obsolete from necessity. To sign the coupons of the $16,000,000 undisputed bonds authorized by the General Assembly, would take 480 days (over a year and a half working days) at 1,000 signatures per day, which no Treasurer can do without neglecting the indispensible duties of his office.

There were, therefore, only 2,000 bonds to be signed for the Chatham R. R. Co., each to be signed once; a task which could be done, by *hard work*, in one day, by easy work in two days.

It thus appears that it was *eighteen days* after the ratification of the Act before I, through Mr. Bain, gave the order for the printing of the blank bonds. There was a Chatham Railroad plate already engraved, and the Bank Note Company took *twenty-five* days, to print the *proof*. *Twenty-one days* afterwards the Company had printed and forwarded 2,000 blanks, and I had signed my name 2,000 times.

Governor Holden is a rapid penman.—He can sign his name 2,000 times with ease in one day. Mr. Charles Dewey can write "C. Dewey" 3,200 times in a day and look hale and hearty, and treat of the performance.

You think the above shows "indecent haste" as Mr. Sweetcake'it. The truth is and all familiar with these things will tell you so, that this work was not only deliberate, but slow, very slow.

As intimated above, Mr. Sweet of the Senate, made this charge last winter, and it was then reiterated by the SENTINEL. Requested an investigation as thorough as it was possible to make. Messrs. Curtis H. Brogden, Willie D. Jones, Joshua Barnes, W. G. Candler, R. D. Whitley and Geo. W. Gahagan, were appointed a Committee to make this investigation. They summoned my Chief Clerk, Mr. Bain, and examined him on oath. They unanimously, Republicans and Conservatives, reported as follows: "Your Committee have thoroughly investigated all the charges and imputations against the Treasurer relative to the issue of State bonds, mortgages and United States Revenue stamps, and are entirely satisfied that he acted in all those matters according to law."

In conclusion your Committee take pleasure in bearing testimony to the fidelity, in fegrity and ability with which they say he has discharged his important and responsible duties."

Again: "They (the Committee) have carefully investigated the charges impeaching the official acts of the State Treasurer, and are of opinion that he acted in the matters referred to with prudence and caution, and in the faithful discharge of his duty."

2nd. You say that the act authorizing the issue of $2,000,000 to the Chatham Railroad Company was "questioned," and, therefore, I ought to have refused to carry it into effect.

I do not so understand my duty. In my opinion it is the duty of the State Treasurer, and of all other ministerial officers, to execute laws passed by the General Assembly undecided to be unconstitutional by the Courts. It is true, certain opponents of the Chatham Railroad, some of whom did not hesitate to vote for and support appropriations of millions to build Roads to their own sections of the State, urged that the act in favor of that Company could not legally be passed. But, after full debate, both branches of the General Assembly passed the bill by large majorities. Was I to set up my judgment against theirs? Am I to embrace, at this late day, the doctrine of "nullification?" No; the only proper course was for me to do as I did. Any other practice, each ministerial officer deciding for himself against the constitutionality of acts of Assembly, would produce the direst of confusion. The wheels of government could not run a moment under such official license. This question was fully examined in the days of Calhoun and decided against the propriety and right of "nullification."

3d. With regard to your question whether I signed the Chatham R. R. bonds *in haste and secretly*, I have only to give a positive and unqualified denial. It is untrue that the bonds were signed in haste. They were signed in the regular course of business, *publicly, in the day time, in office hours*. No secret was made of my intention to issue them. I cannot conceive how any one could have been ignorant of their issue. They were not delivered until 65 *days* after the passage of the act, *over two months*. They were delivered by Mr. Bain in office hours over the Treasury counter. The act which was repealed by the Wilmington and Weldon R. R. Co., was ratified on the 18th of December, after pending some time before the Assembly. The act expressly recites that "doubts had arisen whether the first issue of the Chatham bonds was legal," and *therefore* authorized the old bonds to be surrendered and new bonds to be issued in exchange. The Injunction suit recites this latter act and the Court enjoined me from issuing the new bonds, in exchange for the old. How is it possible that people generally should be ignorant of all these things? I never dreamed that any one should. Learn of these facts "only on last Saturday."

4th. In answer to the inquiry that possibly the President of the Chatham Railroad Company may have made it "worth my while" to issue his bonds "in a hurry," I will only say that it has not the shadow of foundation in truth.

In these and in all matters, I court the fullest examination of my official conduct.

Respectfully,
D. A. JENKINS,
State Treasurer.

GENERAL NEWS.

Pantaloons will continue to the present somewhat tight style, fitting in the same manner round the boot, but striped at the side than formerly. The material will be chiefly gray plaids.

A new iron car has been got up by a mechanic in St. Joseph for use in track laying on the St. Joseph and Denver Railroad. The car is supplied at each end with rollers projecting out about two inches from the bed, and on these the rails of iron are easily and speedily slid out on the track for adjustment in their proper places. The car is drawn by horses.

According to the California papers, Anna Dickinson makes $2 000 a night in San Francisco.

The official figures of the Treasury Department place the agricultural produce of the South at $650,000 000, and show that the South has more money at the present time than any other agricultural portion of the country, North, East or West.

Several hundred bad writers are on a strike in New York for $3.50 per day, which the employers refuse to pay.

Senator Brownlow has disposed of his interest in the Knoxville Whig.

Miss L. A. Cary has been licensed as an insurance agent at Tilton Junction, Iowa.

The Boston Traveller says that the destruction of ornamental trees in the vicinity of that city during the late storm is almost irreparable. Twenty five or thirty years will scarcely be sufficient to replace them.

Lieutenant General Sir Edward Codring ton, K. C. B., of the English army, on breakfasting recently with the Emperor and Empress of the French, at St. Cloud, found the brevet of Grand Officers of the Legion of Honor under his napkin.

ANOTHER DONATION.—Mr. George Peabody on Tuesday gave another $50,000 to the Institute named after him in the town of Peabody, Massachusetts. This makes a total donation of $200,000.

It is said that John Esten Cooke, of Virginia, author of "Surry of Eagle's Nest," &c., is writing another story of the war.

The orange crop in Florida is abundant, and is already coming to market, although the fruit will not be in its prime until December or January.

The cholera has made its appearance in Moscow, Russia, and the deaths average thirty per day.

Gov. Wells of Virginia has rented the splendid mansion of Mr. W. H. Grant in Richmond, and intends to resume the practice of the law.

There have been heavy rains in Minnesota since Saturday, and the Mississippi and Minnesota rivers are flooded, causing great destruction of property. Below Minneapolis 15,000 tons of hay have been swamped. The grain has also been damaged. In St. Croix county alone the loss is estimated at $150,000.

ANOTHER LEAGUE MURDER.—We copy the following, in relation to another atrocious murder perpetrated by the Union League in Jones county, from the *Journal of Commerce*:

On Wednesday evening, near sunset, Mr. David Green, a native and respectable citizen of Jones county, while crossing Chinquapin Creek, seven miles from Trenton and less than a mile from his residence, on his way home, was fired at by a party of men concealed in the undergrowth. Eleven buckshot took effect seven in his left side and two in his head. He was taken into a house near by where, at last accounts, he remained in a dying condition.

No one will escape this dastardly act to the Ku Klux Klan. On the contrary, no sooner was it generally known that an attempt had been made to assassinate Mr. Green, than almost with one voice our citizens denounced the act as that of the Union League. The fact is well known that Colgrove, Shepard and Wilkie bore deadly hostility to him, and we have no hesitation in pronouncing the deed as done by their partisans.

THE ROBE ON OUTLAWS.—A letter to a friend in this city from a gentleman in Robeson makes known further particulars regarding the gang of outlaws and desperadoes, headed by the notorious Henry Berry Lowry, which have so long infested Robeson County. The gang, it appears from this information, extends through Whiteville, Wilmington, Georgetown, (S. C.) Goldsboro', Raleigh and Fayetteville, and numbers several hundred, both white and black.

This information is obtained by one who is at the head of a movement against these desperadoes, who has actively united in the gang from point to point, and who has the names of many of the members, and is in possession of important facts that will prove startling, and will before many days make important arrests.—*Wilmington Journal.*

Some time last fall George S. Twitchell murdered his mother in law, in Philadelphia, and was condemned to be hanged, but escaped the halter by suicide. And now a correspondent of the Bellefont (Pa.) Watchman, writing from Fort Shaw, Montana, declares that the dead man is out there alive and well. "I conversed with him myself for almost an hour," says the correspondent, whose veracity is vouched for by the Watchman, "and would not have believed my own eyes and ears had I not known him previously, and had he not shown me a pardon dated April 6, 1869, and signed by the Governor of my native State, John W. Geary. He looked rough, broken down and dispirited. He told me he was let out of prison on the night of April 6, and that another prisoner who had died that day was carried into his cell, and the next day was taken out of it, and the public and most of his own friends are under the impression that it was his corpse that was buried. He said he had traveled under assumed names until he had reached this territory; had worked his way from Chicago, and that if the Governor hadn't asked such a big price for his pardon, he might have had money enough to start in business of some kind, but, as it was, he was as poor as a church mouse, and didn't know what to do. He left this place the same day I saw him for the Flat head regions."

"STRUCK ILE."—Mr. Grupp is now manufacturing, in this County, Sassafras Oil from the roots and stumps of the sassafras tree. He turns out from ten to twenty pounds per day, which is worth from one to one and a half dollars per pound. This shows that enterprise and ingenuity can extract gold from the hitherto worthless Sassafras stumps of our old fields.—*Salem Examiner.*

YARBOROUGH HOUSE,

RALEIGH, N. C.

OFFICE NO. 25, FIRST FLOOR.

Entered according to act of Congress in the year 1867, by MORRIS BERNHARDT, in the Clerk's Office of the District Court of the United States, for the Middle District of Alabama.

MORRIS BERNHARDT,

OPTICIAN,

OF BERLIN, PRUSSIA.

Recently of New York, offers those who are suffering from weak and defective sight, the

AND

GLASS SPECTACLES,

Superior to any other in use or constructed in accordance with the science and philosophy of nature, in the peculiar form of

A CONCAVE CONVEX ELLIPSIS,

Admirably adapted to the organs of sight, and perfectly natural to the eye, affording altogether the best artificial help to the human vision ever invented. Used only by

MORRIS BERNHARDT,

SPECTACLE & OPTICAL MANUFACTURER.

THE ADVANTAGES of these Spectacles over all others are:

1. They can be worn with perfect ease for any length of time at one sitting, giving an unbroken clearness of vision, by candle or any other artificial light, comfort to the spectacle-wearer hitherto unknown.

2. How to select Glasses. It requires professional guidance even when a good article is offered. Dr. Bernhardt not only has the best Glasses that can be found in the market, but carefully examines the eyes of his patients, and gives indispensable advice as to the proper selection of them.

3. When the eyes ache or pain through the action of a bright light, such as reflected from the snow, shiny leather, white paper, and in reading, writing or sewing, or vivid colored bodies; these lenses, by softening the rays, effect a most agreeable sensation and give great relief.

4. These spectacles are scientific ally adjusted to every case of defective sight with unerring accuracy, whether arising from age, strain, over work or premature decay, by Dr Bernhardt on a new and exact principle, entirely his own, which has seldom failed to be correct.

5. After several years of public practice, adjusting spectacles to patients under every aspect of defective vision, as well as experience in an extensive, long established business in his optical warerooms both here and in Europe, Dr. Bernhardt considers it a sufficient guarantee of his ability to supply such glasses as are best calculated for the assistance of imperfect sight.

6. M. Bernhardt, to signalize himself from the host of pretenders in his profession, with pride submits for inspection, copies of testimonials he has received from medical gentlemen of the most eminent respectability and talent in America; also a number of certificates from well known gentlemen of distinction who have used his spectacles—the originals of all which he will be happy to show to those who may request it. The use of any of the following names or certificates for commercial, without the actual possession of the same, would be a forgery, a capital offence, punishable by State imprisonment.

Testimony of Recommendations from Medical Gentlemen, Professors of the highest Ophthalmic talent in Raleigh, N. C., and in the Union.

Raleigh, Aug 24, 1869.

I have carefully examined Prof. Bernhardt's spectacles, and take great pleasure in recommending him to those who, having defective vision, can be made to see more clearly and distinctly by the use of glasses. He has wonderful skill in this respect. The pair he has supplied me with are of Brazilian Pebble, of superior quality and excellent finish. They enable me to see how to read, or write, at the ordinary focal distance, as clearly and distinctly as I did twenty years ago. I very cheerfully bear testimony both to the Professor's skill and to the wonderful properties of his glasses.

CHAS. E. JOHNSON, M. D.

Raleigh, N. C., Aug. 24, 1869.

I take great pleasure in saying that the Glasses I have obtained (and am now using) from Dr. M. Bernhardt are to me a source of greater comfort than any I have previously used; my own experience fully warranting the testimonials of excellence and commendation which he has received from gentlemen of science and high character, in various parts of our country.

WM. G. HILL, M. D.

Raleigh, N. C., Aug 24, 1869.

I take pleasure in stating that I have examined the glasses of M. Bernhardt, Oculist and Optician, and think they are of the best material, and constructed on scientific principles. I would advise those in need of glasses to call on him.

Very respectfully,
F. J. HAYWOOD, M. D.

Raleigh, Aug. 24, 1869.

Doctor Bernhardt called at my house and exhibited to me his fine assortment of Australian Crystal Glasses, which are of a very superior quality and workmanship. I take pleasure in saying that the glasses I have obtained from Professor Bernhardt are to me a source of greater comfort than any I have previously worn and cheerfully commend them to those who may be in need of glasses.

W. H. MOKER, M. D.

Raleigh, Aug 25, 1869.

After an attentive examination of the various glasses in the possession of Dr. M. Bernhardt, accompanied with his explanation of his modes of preparing and adjusting them, it is with great pleasure I state my belief of his great skill, and of the benefit which those needing glasses must derive from his assistance.

R. S. MASON, D. D.,
Pastor Prot. Episcopal Church.

Raleigh, Aug. 25, 1869.

Dr. M. Bernhardt, Oculist and Optician, has fitted me with a pair of Spectacles superior to any article of the kind I ever had before. The material is Australian Crystal, the quality of which renders vision very clear and distinct, and enables me to read and write with as much ease as I did ten or twelve years ago. His assortment of glasses is in all complete and the finish apparently perfect. I take great pleasure in recommending him to all who need their sight improved.

DRURY LACY, D. D.,
Late Pres't. of Davidson College, N. C.

Raleigh, Aug. 26, 1869.

It gives me pleasure to bear witness to the extraordinary value and excellence of the glasses prepared and furnished by Prof. Bernhardt. To those who need artificial aid for their vision he will be of the highest service.

J. M. ATKINSON,
Pastor of the Presbyterian Church.

State of North Carolina,
EXECUTIVE DEPARTMENT,
Raleigh, March 25, 1869.

I have examined a large number of the glasses of Prof. M. Bernhardt, and with pleasure certify to their superior excellence. I found a pair of them and see as perfectly as I could in my youth. They are the best I ever used, and I therefore heartily recommend him to the patronage of the public.

JONATHAN WORTH,
Governor of North Carolina.

State of South Carolina,
EXECUTIVE DEPARTMENT,
Columbia, June 15th, 1869.

SIR: I have made a full and satisfactory test of the Spectacles procured from you, and I have the pleasure to say that the glasses are better adapted to my eyes than any I have ever used. The facility with which you fitted the glasses to my eyes, furnished the best evidence of your scientific skill in Optics and your thorough experience as an Oculist.

Your statements in your prospectus entitle you to the confidence, patronage and gratitude of the public. I have the honor to be,

Very respectfully yours,
JAMES L. ORR,
Governor of South Carolina.

Prof. Morris Bernhardt, Charleston, S. C.

Wilmington, March 31, 1866.

I have examined a number of Professor Bernhardt's Glasses and am now using a pair of them, and take pleasure in testifying that they enable me to see better than any others that I have used, while to his collection there seems to be no limit to the kind of glasses they know, to correct more of less blindness than his professors.

W. K. BOWLING, M. D.

Testimonials similar to the above may be seen at Dr Bernhardt's office, from the most reliable and well-known gentlemen of the United states, among Whom are:

ROBERTO SAMUDIO, Governor of New York,

OFFICE HOURS FROM 9 A. M. TO 6 P. M.

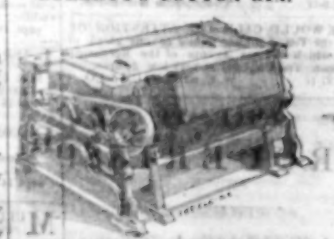
GULLETT'S COTTON GIN.



ON EXHIBITION AT MY STORE A "GULLETT'S STEEL BRUSH GIN."

The Gin is of a very superior style of workmanship, gins more Cotton in a given time than any Gin of the same number of saws; picks the seed cleaner; leaves no motes or nap; does not waste the lint by throwing it over the walls of the room where it is being ginned; does not cut the lint, but brings it out in beautiful bats.

Persons desiring Gins would do well to buy one of Gullett's, as each one is guaranteed, and if it does not have the advantages, over other Gins, named in this advertisement, after fair trial, it will be no sale.

The "Gullett Gin" has been awarded the Premium at the several STATE FAIRS of Louisiana, Alabama and Mississippi.

I am Agent for its sale, and would be pleased to supply.

☞ THOS. N. RAMSAY, as Business Clerk, is authorized to make contracts and give receipts, &c., &c.

New Ads.—J. R. McDonald of Chatham offers a snug little farm for sale.

Whisky, at low prices, twenty five barrels by Douglas Bell.

Rev. Dr. Craven's Address.—The address of Dr. Craven before the Methodist Sabbath School Society, on Saturday night, was listened to by a large and deeply interested auditory. The able Divine entered his subject with his usual eloquence and copiousness of illustration. Few speakers have a happier faculty of fixing the attention and interesting the heart and reason of an audience than Dr. Craven, and his address, on Saturday night, was worthy of himself and his subject.

Utley's Cotton Press will be on exhibition at Mr. Thos. H. Briggs' Blind and Sash Factory, on next Thursday, at 11 o'clock, where he will have collected a sufficient amount of Cotton to pack a bale. Farmers and citizens generally are invited to be present.

Messrs. Bradley and Christophers will please accept our thanks for the plug of fine chewing tobacco, which they so kindly sent us. Messrs. R. & C. are noted in this community for selling none but the best of articles, and that upon terms reasonable and fair.

We have received the *Southern Planter and Farmer* for September. This periodical is devoted to Agriculture, Horticulture and the Mining, Mechanic and Household Arts, and in merit and usefulness ranks with the first Magazines of the country.

To all, and especially those engaged in agricultural pursuits, we recommend the *Southern Planter and Farmer*, published at Richmond, Va., price $2 per annum, in advance.

Let all remember, who enjoy the good things of this life, that Pepper keeps constantly on hand all the delicacies of the season. Delicious Turtle Soup, and Oysters fresh from Norfolk, can always be had at his saloon, and his bar is furnished with all kinds of wines and liquors of the finest and purest quality.

Gone out of the Union.—Mr. Lyman White, a worthy young gentleman, who has been employed in our office for three years or more, left this City this morning to take a "sit" on the *Christian Sun*, published by Rev. W. B. Wellons, Suffolk, Va. May the *Sun* never set on Lyman, but may he have a long "sit" on the *Sun*. He carries with him our best wishes for success.

Schools.—Notwithstanding the absence of all State aid toward public education, the City of Raleigh, at least, is blest with facilities for the education of children and youth, so full, that none need remain in ignorance.

In addition to the Episcopal free School, mentioned in these columns yesterday, which is educating some sixty or seventy children, most or all of them gratuitously, there are a number of other schools of the city, doing great good in affording all, even the poorest, the chances of acquiring an education.

The Baptist parochial school which opened the present session on the 16th of August, has now in attendance, about one hundred pupils, under excellent teachers.

The two parochial school, under the supervision of the Methodist denomination, have something over a hundred. One of these is under charge of Mr. James W. Reid, a graduate of Emory and Henry College, the other under charge of Rev. Mr. Carden.

As announced yesterday, Rev. Mr. McNamara has opened a free school in the school room attached to the Catholic Church. We have not learned the number in attendence.

In addition to the above, which have more or less of the charity, gratuitous feature, there are a number of private schools, male and female, teachers of the highest character and qualification.

The old and favorably known "St. Mary's" is doing well the present session, affording those seeking an opportunity of graduating in the highest branches of female education, an opportunity of doing so.

We have on our table the *New Eclectic Magazine* for October. This number fully sustains the high literary reputation which previous numbers have obtained in the reading world. Its table of contents presents a most attractive and choice assortment of excellent reading matter. Such is our high opinion of the magazine that we heartily endorse the following:

"The *New Eclectic Magazine*, which has now been in existence for three years, and with which has recently been incorporated *The Land We Love*, stands at the head of the list of Southern publications. At this period of the year, when persons are in the habit of choosing their periodicals for the winter, it is especially requested of the public that they bestow a part at least of their patronage upon a periodical published in their interest, and which, the Southern and the Northern press both being the judges, is the peer of any magazine published in America,—both in its literary standards and the quality and attractiveness of its typography."

F. H. Sarns, one of the Editors of the Newbern *Times*, is out in a card, notifying the public generally, that he is tired of having pugilistically inclined individuals, walking into his sanctum and inviting him into the street to indulge in a quiet little Font after the manner of the P. R.

A lighter attached to the *Ella Smith*, loaded with corn, sprung a leak while that vessel was anchored at the wharf at Halifax on Wednesday night last and sank, carrying to the bottom of the river two hundred bushels of corn consigned to Messrs. McIlwaine & Co., Petersburg. So says the Roanoke *News*.

There will be a grand cotillion party at the Graysburg Hotel next Thursday night.

SUNDAY SCHOOL CONVENTION.

SATURDAY, Sept. 18.

The Convention met pursuant to adjournment, and opened with religious exercises, conducted by Rev. J. J. Carden.

A. H. Merritt, Esq., of Chatham, Dr. D. R. Parker and Rev. B. Craven, DD, of Trinity College, appeared and took their seats as delegates.

On motion of Rev. W. H. Bobbitt, the Committee on "formula" was allowed until the meeting of Conference to make their report.

On motion of Rev. E. A. Yates, the name of Dr. D. R. Parker, of Trinity College, was added to the Committee.

On motion of Rev. J. B. Bobbitt, an additional section, making provision to supply vacancies in the offices of the Society, was adopted.

Rev. A. W. Mangum, offered the following resolution which was adopted:

Resolved, That we gratefully appreciate the services of the Raleigh Episcopal Methodist to the cause of the Sabbath School and the proper education of the children, and that we solicit the worthy editor to devote as much space as is consistent with his other obligations, to the "Children's Department," until we can establish a paper exclusively in the interest of the objects of this Society.

On motion of Rev. L. L. Hendren, a resolution of thanks to the citizens of Raleigh, for their generous hospitality to the members of the Convention, was adopted.

A resolution of thanks to the President and Secretary of the Convention, was then offered by Rev. W. H. Bobbitt, and adopted unanimously.

On motion of A. H. Merritt, Esq., a resolution was adopted, tendering the thanks of the Convention to the Pastors of the Baptist and Presbyterian Churches, for the tender of their Churches for the use of the Convention; and also to the different Railroads for passing delegates at half price.

No further business appearing, the Convention adjourned, *sine die*.

SATURDAY AFTERNOON.

Sunday School Society.—The Convention having adjourned, the Sabbath School Society of the M. E. Church, South, in North Carolina, met at the M. E. Church at 4 o'clock, P. M., and organized, Rev. Wm. H. Bobbitt in the Chair, Secretary, Treasurer and many of the Vice Presidents and a number of members present.

A Committee, appointed for the purpose, reported By-Laws for the government of the Society, which were adopted.

A Committee was also appointed to invite Bishop Doggett to deliver an address before the Society, at the next annual Conference at Newbern.

Some other unimportant business was transacted and the Society adjourned.

We see in the *Journal* that the day of the Regatta of the "Carolina Yacht Club," at Wrightsville, has been changed to Tuesday, the 21st inst. The prizes will consist of three silver cups.

The citizens of Wilmington, are considerably exercised on account of the Radical authorities of that city, renting the City Hall to a parcel of negro prostitutes.

Near LaGrange, Lenoir County, on Wednesday last, a little child, seven years old, the son of Mr. Jesse Hardy, was literally crushed to death. The child was engaged in driving a horse attached to a lever mill, when he became entangled in the machinery. His head was drawn between the cog-wheels and was mangled in a horrible manner.

The above facts we gather from the New-bern *Journal of Commerce*.

The "Weldon Enterprise and Loan Company" organized on Wednesday last, by the election of the following officers:

President—Aaron Prescott.
Vice President—Joshua Stone.
Assistant Secretary—R. O. Edwards.
Treasurer—James T. Gooch.
Superintendant—Thos. A. Clark.
Directors.—W. W. Brickell, R. W. Daniel, J. B. Zollicoffer, Jos. T. Evans, L. F. Larkin, Dr. A. B. Pierre, Jas. D. Bass, J. C. Simmons, Samuel Miles and Thos. L. Emry.

The great, unprecedented, overwhelming victory throughout the state by the Democracy, and their consequently complete control of legislation in the next session of the Legislature, has already made some of the party bold in enunciating some of the moves to be made on the legislative board. First on the list may be mentioned a Metropolitan Police bill. Mr. Selby having been elected Mayor, under the present law, he, with Chief of Police Crowley, would have control of the police force, as McCoppin and Provines have had. Mr. Selby will assume the office in December. Our Legislature will meet on the first Monday of the same month, and, it is said, a Police bill will at once be passed, taking away from the Commissioners, as now constituted, all power to appoint or remove policemen; but vesting it in a new appointing power. We presume the idea is to assimilate our police system to the Metropolitan Police system of New York. Another feature of the programme is said to be a redistricting the State for members of Congress. At present there are two Democratic districts—the First and the Third—and one Republican—the Second. In the First the Democrats have so large a majority that they can stand an addition of Republican votes, they think, without danger of defeat. On the contrary, the Second District may be made Democratic by a little judicious Gerrymandering—a thing that politicians of all parties have been guilty of, and will be again whenever they have the opportunity, but not much to their honor. Suppose they attach Alameda county to the First District and so give the Second District to the Democrats. Then good-bye, Mr. Sargent. But according to the late election returns, the districts, as they are now organized, are all three democratic. A districting will have to be done after the returns of the census of 1870 shall have been made public, whether the next Legislature re-district the State or not. For, unless the apportionment is fixed on a different basis from the present as to population, California will be entitled to at least five members of Congress. This city alone has more people than would entitle her to a member, without counting in any of the adjoining counties.—*San Francisco Morning Call (Independent.)* 4th.

We learn from our exchanges that the Cotton crop in Robeson County is looking remarkably well, and if there is a late fall the yield will be as large as could be expected.

The Corn, however, owing to the severe drought experienced during the past Summer, will fall considerably short.

The Wilmington *Star* has information that cotton intended for shipment over the Wilmington, Charlotte & Rutherford R. R., for Wilmington or New York will be received at Lillerille and New Forestville, and hauled to the head of said road free of charge. The freight on the road will be only $2,00 for a bale of 450 pounds.

The Cotton crop in Northampton County will fall short at least one-half of what was expected.

On Friday last one hundred and ten bales of cotton were brought into the Newbern market.

TWENTY-FIVE BARRELS FOR SALE BY

DOUGLAS BELL,

Raleigh, N. C., Sept 20-dtf

A Cheap Truck Farm For Sale.

PRICE $650.

Desirous of removing from the State I will sell my Farm located in Chatham County, on the waters of George's Creek, near Deep River, containing

FORTY SEVEN ACRES OF LAND,

Including a comfortable Dwelling, Kitchen, Barn, Stable, Blacksmith-Shop, Smoke-House and Crib, besides other conveniences, among which is a never-failing Spring of excellent Water, within twenty feet of the Kitchen door. This Land is FRESH and well adapted to the cultivation of all kinds of Fruits and Vegetables, as well as Cotton, Wheat and Tobacco.

The advantage this Farm offers is its convenience to the Raleigh and Fayetteville markets, being only a few hours run from either place, and is almost on a line with the Chatham Road now under construction, and two and a half miles from the terminus of the Fayetteville and Western Railroad.

Any person who wishes to buy a GOOD FARM for a LOW PRICE will have the opportunity by applying to me at Egypt Depot, N. C., as early as desirable.

Morning Edition.

TELEGRAPHIC.

Saturday Evening Dispatches.

WASHINGTON.

Washington, Sept. 18.—Boutwell has returned. It is stated that Capt. Wiggins sailed from Philadelphia with arms and ammunition, to take on board of the steamer "Bermuda," which recently sailed from Halifax, bound for Cuba.

The Postoffice Department pays $50 000 premium per year on gold remitted for foreign service.

Recent Cuban letters revive the probability of severe battles at and near Las Tunas, but no details transpire.

The Assistant Secretary of the Treasury has given works leave of absence in order to hold a Massachusetts Court.

VIRGINIA.

Staunton, Sept. 18.—Hamed Bey, the Turkish Minister, passed through this morning en route for Washington.

FOREIGN.

London, Sept. 18.—It is rumored that Napoleon is about abdicating in favor of his son, but will retain the Presidency of the Council.

Madrid, Sept 18.—It is thought that the Washington government is more conciliatory since Sickles dispatches that the power of the Spanish people would compel the government to continue the war for the suppression of the Cuban insurrection.

The King of Italy consents to the election of the Duke of Genoa as King of Spain.

Workmen's strike at Barcelona is assuming alarming proportions.

Havana, Sept. 18.—The Steamer "Florida" has arrived from Vera Cruz. Advices from all parts of the country represent more tranquility among the people than has existed for many years.

MARKETS.

New York, Sept. 18.—Flour heavy and irregular; Mostly steady at $10 7; sterling, long 9¼, short 9¾; Gold 36¼; 5-20's, 1865, coupon 10½, new 9¼; Virginia 6's new 87; new 57; Louisiana 70; Levees 65¼ Sc. 84; Ala. 5s 92, Sc. 83; Geo. 6s. 85, 7s. 90; N. C. 6s, old 32, new 27½; S. Carolina 66.

Flour favors buyers; Wheat one to two cents lower; Corn dull, 1 to 2 lower; Pork firmer at 29½; Lard quiet; Cotton a shade easier at 30½; Turpentine steady at 51. Rosin favors buyers, common and good strained, 2,30 to 2,35.

London, Sept. 18.—Consols 93½. Bonds 83½.

Liverpool, Sept. 18.—Cotton flat. Uplands 13; Orleans 13¼. Sales of 10 000 bales.

Later.—Cotton irregular. Uplands 12¾ to 13 Orleans 13 to 13¼.

Saturday Midnight Dispatches.

FROM WASHINGTON.

Washington, Sept. 18.—Revenue to-day three hundred and twenty thousand dollars.

Hoar is the only member of the Cabinet now absent from Washington. Much of what has been stated as the policy of the administration on the subject of the Cuban affairs, is more conjecture. Nothing has been done beyond instructing Minister Sickles, to offer the mediation of the United States. There are no present prospects that belligerent rights will be recognised. The administration will however, enforce the neutrality laws and respect treaty obligations.

There is no doubt the sympathies of the administration are with the Cubans, and of all it may do, it will act with discretion, with a view of effecting a settlement of the question in a manner that will be satisfactory to all parties interested.

PENNSYLVANIA.

Philadelphia, Sept. 18.—Dr. Benjamin Dorr, Rector of Christ Church, is dead.

SOUTH CAROLINA.

Charleston, Sept. 18.—A terrible accident occurred to the night train from Charleston, on the south Carolina R. R., before daylight this morning; a large tree had fallen across the track at Congaree Swamp, and the engine and part of the train were precipitated into the swamp.—The engine blew up, setting the cars and trees on fire. About six hundred feet of the trestle was burned; no passengers injured; the engineer, Hargrove, and firemen, Gilbert, were killed and firemen, Burns seriously wounded.

KENTUCKY.

Louisville, Sept. 18.—Millard Fillmore has been appointed delegate, and will attend and preside at the organization of the Southern Commercial Convention at Louisville.

NEW YORK.

New York, Sept. 18.—As the railroad lines south of Louisville fall, especially those running to Memphis, New Orleans and Mobile, are all jam-packed with freight. The Agents of the different lines in New York are in consequence, refusing to give rates or receipts to points beyond Louisville.

This blockade does not interfere with the passenger business. The meeting of Railroad men, held in this city in the early part of the week, on the subject of increased rates of freight, resulted in nothing.

Niagara Falls, Sept. 18.—An unknown man threw himself into the falls, after with deliberation taking off his coat, and was instantly killed.

WISCONSIN.

Portage City, Sept. 18.—Pat Wallack, highwayman, was taken from jail and hanged.

MASSACHUSETTS.

Boston, Sept. 18.—The *Daily Advertiser* learns from a gentleman just arrived from Martha's Vineyard, that a party of Indians went off yesterday to a steamer two miles from land, found her to be an iron clad war vessel, carrying 12 steel guns. They fraternized with the Steward of the steamer, and on reaching the shore, reported that she was a Cuban Privateer. They saw between decks a large body of men, the Steward says there were three hundred. The Steward also said her armor plating was four inches thick. A large volcano was rising almost astride the steamer, made of the form of a large volume of smoke, as it to conceal the schooner. The steamer is supposed to be five thousand tons burden.

FOREIGN.

City Point, Sept. 12.—Escheole has arrived.

The new Light House has been erected at the mouth of the Coatzacoalcos river.

Juarez has formed a new Cabinet. Lerdo, Judge of the Supreme Court, and most of the old members are retained.

The trial of military conspirators resulted in sentences of three of them to ten years imprisonment.

Six miles of the railway to Puebla are completed.

Quebec, Sept. 18.—The manager of the Quebec branch of the Montreal Bank, absconded with $50,000 of the Bank funds.

Paris, Sept. 18.—Empress departs Eastward on the 26th October.

London, Sept. 18.—Thomas Graham, master of Mint and assay at Chemist, is dead.

Havana, Sept. 18.—The schooner "S. Dyer," from New York, for Texas, put in as Matamoras in distress, and was detained as a filibuster, but was afterwards discharged.

MARKETS.

New York, Sept. 18.—Cotton a shade lower, sales 4,000 bales at 30½; Flour favors buyers, limited export demand, superfine 6,25; corn dull at 1,12 to 1,14; Whisky lower at 1,14½ to 1,16; Pork firmer, 30½; Lard heavy, kettle 19½ to 20½; Naval stores quiet; Groceries firm.

Money active and firm at 7; Governments firm; 62's 21½ to 22; State bonds dull, but new Tens a fraction at 95½; Gold 36½; Sterling nominal, 9¾ to 9¾.

Baltimore, Sept. 18.—Yarn 40 and 50, 29 to 30, coupons, old 54, new 49 to 50. Cotton dull, nominal; Flour dull, demand light; Wheat steady; Corn firm, white and yellow 1,15 to 1,22; oats unsettled at 58 to 61; Rye 1,10 to 1,15; Pork dull; Bacon firmer; Whisky 1,16 to 1,17.

Wilmington, Sept. 18.—Spirits of Turpentine 50; Rosin 1,55 to 1,60; Crude Turpentine 2,50 to 3; Tar steady at 2,50; Cotton 26½ to 27.

Havana, Sept. 18.—Sugar heavy an advancing tendency; Exchange firmer, rates tending up.

Fall Trade 1869.

GLASS GOBLETS—wine for Kerosene Lamps, Gallipots, Burners and Wicks.

OFFICE OF PROBATE JUDGE, GATES COUNTY, N. C.

Motion having been made, before me, to admit to Probate the Manuscript will of A. B. Savage, deceased, notice is hereby given to the next of kin to said deceased that said motion is set for hearing on the 25th of October next, and that they may then come forward and contest the will if they think proper. R. B. G. COWPER,
Gatesville, Sept. 9-w4w Probate Judge.

THE UTLEY COTTON PRESS.

A NEW combination of power, whereby all friction is overcome. The simplicity, economy and durability of the PRESS commends it to all who seek, and the more as it is that a power so simple should so long have been unappreciated. With this Press, two men can do all the packing or pressing of a bale pound bale inside of eight minutes: and it can be readily taken down and transported, as it is simple and light. We can supply these Presses cheaper than any yet offered to the Planter. Will send circulars to any desiring, and we would advise all persons waiting prices to withhold buying until they examine this.

THE PRESSES are now being manufactured at the SASH AND BLIND MANUFACTORY OF THOS. H. BRIGGS. All are warned that as between this and any other there is no argument as to its merits over all others. With the irons, they usually cost $200, and pay them in one year. The Patentee is here for a few days, and will take pleasure in explaining its merits.

Address T. H. BRIGGS,
sept 19-tf Raleigh, N. C.

Special Notices.

Pretty Women. A comparatively few Ladies monopolize the Beauty as well as the attention of Society. This ought not to be so, but it is and will be while men are foolish and single out pretty faces for companions.

This can all be changed by using Hagan's Magnolia Balm which gives the Roses of Youth and a refined sparkling Beauty to the Complexion, pleasing powerful and natural.

No lady need complain of a red, tanned, freckled or rustic complexion who will invest seventy-five cents in Hagan's Magnolia Balm. Its effects are truly wonderful. To Preserve and Dress the Hair use Lyon's Kathairon. aug. 28. 1m

An Philosophy of Marriage.—A New Course of Lectures, as delivered at the New York Museum of Anatomy, embracing the subjects: How to Live and What to Live for; Youth, Maturity and Old Age; Manhood Generally Reviewed; The Cause of Indigestion; Flatulence and Nervous Diseases accounted for; Marriage Philosophically Considered, &c. These lectures will be forwarded on receipt of four stamps by addressing: Secy Health ge Museum of Anatomy, 74 West Baltimore Street, Baltimore, Md.

LIFE INSURANCE.

THE LEADING COMPANY IN NORTH CAROLINA IS

THE ÆTNA LIFE,

OF HARTFORD.

JULY 1ST, 1869.

Amount of Assets $12,000,000.00.

DIVISIBLE SURPLUS $2,675,999.48,

AND CONSTANTLY INCREASING.

ALL THE SURPLUS OF THE COMPANY DIVIDED AMONG THE ASSURED.

DIVIDENDS DECLARED AND PAID ANNUALLY ON THE CONTRIBUTION PLAN.

ALL POLICIES (AFTER TWO FULL PAYMENTS) NON-FORFEITABLE, AND SO EXPRESSED ON EACH POLICY.

No Restrictions as to Residence and Travel in the United States.

RATES LOWER THAN ANY OTHER COMPANY THAT PAYS DIVIDENDS TO POLICY-HOLDERS.

IT ISSUES ALL THE VARIOUS FORMS OF LIFE AND ENDOWMENT POLICIES.

LOSSES PAID PROMPTLY IN CASH.

LIST OF LOSSES ACTUALLY PAID BY THE ÆTNA LIFE INS. CO., AT THE BRANCH OFFICE, IN RALEIGH, BY THE HANDS OF W. H. CROW, GENERAL MANAGER OF THE STATE AND PART OF VA.

No.	15,973	$ 5,000
"	18,018	5,000
"	18,607	5,000
"	24,692	2,000
"	27,512	10,000
"	38,650	5,000
"	42,971	2,500
"	35,802	10,000
"	48,793	2,000
"	16,159	5,000
	and a cash Dividend of	75
"	43,676	2,000
"	43,330	5,000
"	51,136	2,000
"	14,598	10,000
"	40,266	5,000
"	42,975	5,000
"	22,304	15,00

And $5,000 ready to pay a loss of No. 34,161, so soon as the party authorized to receive the money appears.

The Company has been well tested throughout the State, as to its promptness in paying her losses, reliability, &c.

DIVIDENDS PAID AT THE END OF THE FIRST YEAR, AND ANNUALLY THEREAFTER.

Its ratio of expense to income is proverbially low. This may be seen by reference to the Official Reports for 1868. For example:

EXPENSE ON THE $100 RECEIVED.

Knickerbocker,	$16,54
Equitable,	17,44
North America,	21,10
Brooklyn,	21,89
Universal,	27,24
John Hancock,	18,27
The National,	23,48
The Ætna,	13,41

It has an IMPORTANT NEW FEATURE that has been copy-righted. According to this plan the rates are MUCH LOWER than in any other Company in the world.

Its ratio of Mortality is low. Its rates are very low. Its expenses are very low. Its Dividends are large.

It insured more lives in the City of New York (or 843, than any other Company, except one. It insured more Policies in the United States than any other save one. It insured more lives in Canada than any other (Hospitals, British, or home stock, Policies).

See what the MONTHLY INSURANCE AUTHORITY in this country says. In the June number of the Insurance Times, of New York, the following opinion was expressed:

"If there is any great benefit in mutual association, any great advantage to be derived from scientific organization and a chartered source, tending to mitigate the sufferings, lessen the privations, and add to the peace, security, and happiness of humanity, we are prepared to show that these blessings flow, in all their fulness and purity, from this excellent, powerful, and flourishing Company, the ÆTNA LIFE, of Hartford."

"No institution has brought more prompt, full, and grateful relief to the hearths of the bereaved and desolate, and none has been more uniformly distinguished for the enterprise, wisdom, and equitable liberality with which it has fulfilled the purposes of its formation."

"Its success has been almost unbounded and beyond all precedent. Eight years ago, in 1861, it issued only 587 policies, received an income of a little more than $600 dollars, and possessed assets summing up to something over two hundred and eighty-one thousand dollars; but last year, 1868, it granted 13,237 new policies, more than any other Company except the Mutual of New York, received an income exceeding six million dollars, and has amassed solid, securely and profitably invested assets amounting to over Ten Million Three Hundred and Fifty Thousand Dollars. And this wonderful ratio of growth has been sustained to 1869."

METALLOTHERAPIA.

Paris Correspondence of the N. Y. Times.

The new practice in Paris—extraordinary treatment of disease. The most astounding new thing in medicine is the practice of Metallotherapia, or cure of disease by mentals, as practiced by Dr. Burd, of Paris. The men who have seen it tried at the hospitals still refuse to believe, because they do not see the trace between cause and effect. Thus far the most striking results in its use have been obtained in cases of chlorosis, hysterical paralysis and the cashexias generally. To asser aid what metal is adapted to the case—and this is the astounding part of the new doctrine—plates of two or three inches in diameter of gold, copper, zinc, steel and silver are placed successively on the skin of the patient, and whichever one of these plates, in a given time—say in two hours—produces the greatest smarting and redness is chosen as the remedy fitted to cure the disease. The metal thus facilitates by its external effect whether it will be useful or not internally. Where there is anæsthesis of the surface, as is common in hysterical paralysis, circulation, redness and sensation are produced rapidly by the right metal—the most frequently by gold—and this metal, given internally cures in one-fourth of the time required by the old method of iron anti spasmodics, hydropathy and the like. M. Mialke, of Paris, is making for this purpose a pill of the bromide of gold, which has been, thus far, most successfully used. The new theory is being experimented on a large scale and is worth the while.

BIRTH OF A SCION OF THE HOUSE OF HACKETT, IN CANADA.

Born, September 6, instant, upon Wolfe Island, C. W., where the infant's mother is now sojourning, a son to James H. Hackett, a native and a resident of New York city, and who is rightfully, according to "Burke's Peerage," "Baron Hackett, of Hacketts-town, county Carlow, and Shelton Abbey, county Wicklow, Ireland, descended from Hackett, one of the great Norman barons who came over with William the First and whose name still appears heading the Conqueror's roll of his six and thirty nobles and generals, inscribed A. D. 1066 upon the pillar erected at Battle Abbey, near Hastings, England. One of his progeny accompanied Henry the Second in his famous Irish expedition, and obtained vast estates and seigniories, and his descendants became, generation after generation, Parliamentary barons and potent magnates in Ireland."

In 1839 the London *Court Journal*, after the death of the late Edmond Baron Hackett, referring to the attested family pedigree, Herald's College, Castle Dublin, announced:—"James Henry Hackett, of New York, United States, the true inheritor of that ancestral dignity, and also the sole surviving representative of the family and of the original and illustrious line of feudal barons who lost their estates by reason of revolutions and the Reformation, and are now classed among the extinct peerages of England, Scotland and Ireland.

So that between their titles and low name
There's nothing differs but the outward fame.

Mr. James H. Hackett is also the father—by his first marriage—of the Mr. John K. Hackett, noted as an able lawyer, an eminently just Judge and also the popular Recorder of the city of New York.

AN IMMENSE GRAPEVINE.

The Santa Barbara (Cal.) *Press* correspondent says:—

I have seen the big grapevine. The owner says it is forty-two years old. The trunk is nearly circular, and at ten inches from the ground is thirty nine inches in circumference; at three feet from the ground, the smallest place, it measures thirty-six inches; and at five feet it measures forty-six inches in circumference; immediately above this measurement it swells out much larger and parts into branches. It is supported by a framework six to seven feet high, containing sixty-six posts from three to eight inches in diameter, and covers about 4,320 square feet of ground. Several of the limbs are nine inches in circumference at thirty feet from the trunk, and one of the branches at forty-eight feet from the trunk, is seven and three eights inches in circumference. It now has over 5,000 clusters of grapes on it growing finely. The owner, and others familiar with it, tell me that the clusters will average, when ripe, about two and a half pounds each; but-call them two pounds each, and it makes over five tons of fruit from one vine in one year. Several persons made estimates on it last year, when the fruit was ripening, by counting the clusters on ten feet square, and weighing some average clusters. Their estimates varied from four to six tons. This is probably the largest grape vine in the world.

MEDICINES, &C.

Koskoo!

THE GREAT REPUTATION

Which KOSKOO has attained in all parts of the Country

AS A GREAT AND GOOD MEDICINE,

has induced Dr. Lawrence to ENLARGE HIS LABORATORY and FACILITIES for MANUFACTURING, so as to be enabled to supply the extraordinary demand for it.

THE LARGE NUMBER OF TESTIMONIALS which are constantly being received from Physicians, and persons WHO HAVE BEEN CURED by its use, is CONCLUSIVE PROOF of its REMARKABLE VALUE.

As a BLOOD PURIFIER, it HAS NO EQUAL,

BEING POSITIVELY THE

Most Powerful Vegetable Alterative

YET DISCOVERED!

DISEASES OF THE BLOOD.

"The life of the flesh is in the Blood," is a Scriptural maxim that science proves to be true. The people talk of bad blood, as the cause of many diseases, and like many popular opinions, this of bad blood is founded in truth. To say nothing of those humors that are hereditary, we can easily see how the Blood may become bad from imperfect Digestion or failure of excretion, and how this may influence the process of Nutrition, and thus influence all the functional activities of the body.

The symptoms of bad blood are usually quite plain—bad Digestion—causes imperfect nutrition, and consequently the circulation is feeble, the soft tissues lose their tone and elasticity, and the tongue becomes pale, broad, and frequently covered with a pasty, white coat. This condition soon shows itself in roughness of the skin, then in ERUPTIVE and ULCERATIVE diseases, and when long continued, results in serious lesions of the Brain, Liver, Lungs, or urinary apparatus. Much, very much, suffering is caused by impure blood. It is estimated by some that one-fifth of the human family are affected with scrofula in some form.

Persons suffering from any bad humor are very liable to have it settle on the Lungs or some other vital organ. The only safe rule is to remove the Blood poison at once, before it settles itself upon some vital point.

When the Blood is pure, you are not so liable to any disease. Many impurities of the Blood arise from impure diseases of large cities. Eradicate every impurity from the fountain of life, and good spirits, fair skin and vital strength will return to you.

KOSKOO!

AS A

LIVER INVIGORATOR!

STANDS UNRIVALLED.

BEING THE ONLY KNOWN MEDICINE that EFFECTUALLY *stimulates* and CORRECTS the *hepatic secretions* and functional DERANGEMENTS of the Liver, without debilitating the system. While it acts FREELY upon the Liver instead of CATHARTIC PURGING, it gradually changes the discharges to a PERFECTLY NATURAL STATE.

SYMPTOMS OF LIVER COMPLAINT AND OF SOME OF THOSE DISEASES PRODUCED BY IT.

A sallow or yellow color of the skin, or yellowish-brown spots on the face and other parts of the body; dullness and drowsiness, sometimes headache; bitter or bad taste in the mouth, internal heat; in many cases a dry teasing cough, unsteady appetite; sometimes a sour stomach, with a raising of the food; a bloated or full feeling about the stomach and sides; aggravating pains in the sides, back, or breast, and about the shoulders; constipation of the bowels; piles, flatulence, coldness of the extremities, &c.

KOSKOO!

Is a remedy of WONDERFUL EFFICACY in the cure of diseases of the KIDNEYS and BLADDER. In these affections it is as DIRECT A SPECIFIC as ANY remedy can be. It does its WORK RADICALLY, SURELY, and SURELY. The RELIEF which it affords is both CERTAIN and PERCEPTIBLE.

DISEASES OF THE KIDNEYS AND BLADDER.

Persons unacquainted with the structure and functions of the Kidneys cannot estimate the importance of their healthy action.

Regular and sufficient action of the Kidneys is as important, nay, even more so, than regularity of the bowels. The Kidneys remove from the Blood those effete matters which, if permitted to remain, would speedily destroy life. A total suspension of the urinary discharges will occasion death from thirty-six to forty-eight hours.

When the Urine is voided in small quantities at the time, or when there is a disposition to Urinate more frequently than natural, or when the Urine is high colored or scalding with weakness in the small of the back, it should not be trifled with or delayed but Koskoo should be taken at once to remedy the difficulty, before a lesion of the organs takes place. Most of the diseases of the Bladder originate from those of the Kidneys, the urine being imperfectly secreted in kidneys, proves irritating to the Bladder and Urinary passages. When we recollect that medicine never reaches the Kidneys except through the general circulation of the Blood, we see how necessary it is to keep the Fountain of Life Pure.

KOSKOO!

MEETS WITH GREAT SUCCESS IN THE CURE OF

Diseases of the Nervous System.

Almost nine-tenths of our people suffer from nervous exhaustion, and are, therefore, liable to the concomitant evils of mental depression, confused ideas, softening of the brain, insanity, and complete breaking down of the general health. Thousands are suffering to-day with broken-down nervous systems, and, unfortunately, tobacco, alcohol, late hours, over-work, [mental and physical] are causing diseases of the nervous system to increase at a fearful ratio.

The symptoms to which diseases of the nervous system give rise, may be stated as follows. A dull, heavy feeling in the head, sometimes more or less severe pain or headache; Periodical headache, Dizziness, Noises or Ringing in the Head; Confusion of Ideas; Temporary Loss of Memory; Dejection of Spirits; Starting during sleep; Bad Dreams; Hesitation in answering questions; Dulness of Hearing; Twitching of the Face and Arms, &c., which, if not promptly treated, lead to Paralysis, Delirium, Insanity, Impotency, Apoplexy, &c., &c.

CONCLUSION.

Suffering reader, do not think that because you have tried other remedies, you cannot be cured, but recollect that God, in His Providence, has not afflicted His children with pain and disease, without at the same time giving them something in the Great Garden of Nature that will cure them.

Have no hesitation in writing to me, and stating your case in full, and I will answer you promptly.

KOSKOO!

Is NOT a *secret quack* remedy. FORMULA around each bottle. Recommended by the best Physicians, eminent Divines, Editors, Druggists, Merchants, &c.

FIRE INSURANCE.

HAVING BEEN APPOINTED THE REPRESENTATIVE OF THE LONDON LIVERPOOL AND GLOBE INS. CO. WHOSE CAPITAL AMOUNTS TO

$17,000,000 IN GOLD.

I am now prepared to insure all kinds of

PUBLIC AND PRIVATE BUILDINGS, RAILROAD DEPOTS, SHOPS, ROLLING STOCK, BRIDGES AND TRACKS, FACTORIES FOUNDERIES,

MILLS AND MERCHANDISE.

IN ANY PART OF NORTH CAROLINA AT EXCEEDING LOW RATES.

I will when desired issue Permanent Policies which insures the property specified forever, unless the assured chooses to cancel his Policy in which event all the premium he has paid will be returned less five per centum.

The loss of a Court House or other Public Building at the present time would be a public calamity, whereas a trifling amount paid for a policy WILL SECURE A SUFFICIENT SUM TO REBUILD SHOULD THE PROPERTY BE DESTROYED BY FIRE.

RAILROADS.

TO SHIPPERS.

NORTH CAROLINA ALL STATE RAILWAY LINES, (THAT USED TO BE.)

THE OLD RALEIGH & GASTON RAIL ROAD, THE SHORTEST, QUICKEST, SAFEST AND BEST LINE, NORTH AND SOUTH, TO BE LEFT OUT IN THE COLD, UNLESS SHIPPERS SPECIALLY SAY VIA R. & G. R. R.!

WE inaugurated and are the *Great through Inland Air Line Route* to all the Northern Markets, and have successfully worked the Line to the entire satisfaction of Shippers, North and south, for the last ten years, as the ten Thousand shippers in North and South Carolina will testify. We paid the State near Seven Hundred Thousand Dollars for her interest in this Road—thereby saving the people from Taxation for all time to come $60,000 per year; and we unhesitatingly declare that we can and will give more dispatch to all points, North and South, than any other Line.

NOTICE!

The Great Inland Air Line Freight

R O U T E,

Via THE RALEIGH & GASTON RAIL ROAD,

is the Short Line for Shippers, and you are required so to direct your Freights, or they will be taken by another Route!

To insure your Freight being carried over this *Great* Inland Air Line safely, direct your consignors to mark your Freight, Care of Rail Road Agent, Portsmouth, Va., or City Point, Va., via *Raleigh & Gaston Rail Road*, and to ship as follows:

FROM BOSTON:

Merchants' & Miner's Line, end of Central Wharf, E. Sampson, Agent.

FROM NEW YORK:

Old Dominion Steamship Co., Shipping Point, Pier 37 North River, Foot Beach st., Office 197, Greenwich st., Cor. Day; S. L. McCready, President.

FROM PHILADELPHIA:

Via Annamessex, Phila., Wilmington and Baltimore Depot, or Clyde's Line of Steamers, 14 N. Delaware Avenue, W. P. Clyde, Agent.

FROM BALTIMORE:

Baltimore Steam Packet Co., Bay Line Steamers, Foot Union Dock, L. B. Parks, Agent, or Powhatan Steam Boat Co., 90 Light Street Wharf, C. B. ALLEN,

Nov 23. Freight Ag't Raleigh N.C.
